

DEVI CURVED STAIRLIFT

FOR INDOOR USE

Registered NDIS Provider

The Devi stairlift introduces a new generation of curved stairlifts into Australia.

With the inclusion of powered swivel (at the top and bottom of the staircase), and powered footplate as standard, the **Devi stairlift provides an impressive package** that will appeal to home owners. But the Devi doesn't compromise on quality. The Devi combines **quality componentry with clever design** to provide a safe and reliable stairlift solution for home owners, with a contemporary seat design that will complement any decor.

SUITABLE FOR CURVED STAIRCASE LAYOUTS

- ✓ where the staircase is not a standard straight set of stairs.
- ✓ where the staircase may have fanned stairs at the top, bottom or in the middle.
- ✓ where there are bends and landings through the staircase.

A curved track system also allows for greater flexibility in terms of where the stairlift will be stored after travel, for example around a corner or further down a hallway, which may be preferable in tight staircases and narrow spaces (straight stairlifts remain on the staircase, although can be folded to minimise their intrusion onto the stairs). The Devi stairlift also offers a hinged rail, which is ideal if the rail blocks a hallway or door, the hinge rail folds back automatically after use.

The Devi stairlift uses a clever modular design that contains just two main track parts – a straight aluminium rail profile, and 5 degree casted curved parts. Using only two elements we can create every rail shape to meet customer needs. Not only does this afford great flexibility on site, but it is why this system is able to be removed, and reconfigured for another staircase if the homeowner moves to another house (additional parts will be required for a longer staircase).

FOLDABLE ARMRESTS

Arms are easily foldable to minimise the intrusion on the stairs. When arms are folded up the footplate automatically folds up.

TOGGLE CONTROL

The toggle is extremely user-friendly; simply push the toggle in the direction of travel.

POWERED SWIVEL SEAT

The powered swivel seat functions at both the top and the bottom of the staircase (an option which is not always available on stairlift systems).

POWERED FOOTREST

When the armrests are raised and lowered the footrest will automatically fold up and down. The Devi offers this convenient feature at no additional cost.

FAUX LEATHER SEAT

The seat is finished in an ethical faux leather which provides a soft and luxurious appearance to compliment any home. Available in two colours - sand or charcoal.

OUR STAIRLIFT RANGE

National Stairlifts offer a full range of straight and curved stairlifts for indoor and outdoor staircases. We also offer cargo platforms, wheelchair platform lifts, and a range of custom lift solutions customised to suit our clients. Please contact us to discuss your requirements.
